#### Terrain 01

An OTHERSPACE Project

Artificial Life - Genetic Art

Interactive "artificial life" installation, a non-autonomous one, because it is a world of autonomous cybernetic vehicles dependent on external light energy.

*Idea and Concept: Ulrike Gabriel*

*Brainwave Light Control: Jens Heise*

*Sensorics: Bob O'Kane*

*Trichanics: Siegfried Albrecht*

Hardware and software design as well as development of the Brainwave Light Control

### GENETIC ART-ARTIFICIAL LIFE

Ars Electronica 93, Festival of Art, Technology and Society
